TWELVE PLEADS FOR CORPORATIONS IN LEGISLATURE

Reads Letter from Calgary
Board of Trade Opposing
Measure.

MINISTERS SHOW BILL HAS
HAD DUE CONSIDERATION

Juveniles and Game Receive
Consideration During the
Morning Session.

When the third reading of the bill to amend the corporations' taxation act was proposed at this morning's session Mr. Tweedie read a telegram from the Calgary board of trade, objecting to the passage of the bill. Mr. Tweedie said that measure should be carefully considered and given notice of their enactment given to the corporations affected.

Mr. C. L. Mitchell said that due notice had been given to interested parties. The bill had received the most careful attention. Its provisions were reasonable. It did not contain a single radical clause. Alberta was not attempting to do anything that other provinces had not done already.

Mr. C. W. Cross said the bill was not a surprise for the interested parties. The government had advised them of its intentions and after consultation, certain clauses were modified. In its present form the bill was acceptable and reasonable.

Mr. A. Mackay stated that Alberta had hitherto been very generous in its treatment of corporations in the matter of taxation. The province was only now proposing to make its corporation tax equal to the lowest tax in the land in other provinces. Alberta was not attempting anything new or radical, but simply bringing its corporation tax up to the lowest existing elsewhere in Canada.

The bill was read a third time and passed.

FATAL THRESHING ACCIDENT OCCURS NEAR MOOSE JAW

Moore Jay, Sask. Oct. 24.—A terrible threshing accident occurred here last evening when Ed Langlois, a separator man working on an outfit owned by Moore & Co., was injured so badly that he died before morning.

Mexican Gunboat Trains Guns on American Liner

Information Refused as to Nature of Charge—Thought that
Five Passengers Are Friends of Diaz—Protest Wired
to Secretary Bryan at Washington.

Winnipeg, Oct. 24.—A broker's wire here quotes the New York American as having received a cable from Vera Cruz stating that the Ward liner, Motor Castle, was seized in port last night by the Mexican government. Her papers were refused and her captain arrested on a criminal charge.

The Mexican gunboat Zergaola lies near with her guns trained against the liner's bows. When the passengers for the United States, including Mrs. John Lind, wife of President Wilson's personal Envoy, had gone aboard notification came that no clearance had been allowed.

Captain Hass, the commander, made enquiry, but could get no satisfaction. Then came the order of arrest, the captain being cited to the criminal court and not told what was the nature of the charge against him.

Envoy Lind immediately protested to Secretary Bryan by cable. It is thought they are friends of General Felix Diaz who arrived here yesterday and were put under arrest.

Vessel Clears.
Vera Cruz, Oct. 24.—After protests by the American against the firing of the Ward line steamer Motor Castle by the order of the authorities here the vessel was formally cleared this morning for Havana and New York. Mrs. Lind, the wife of President Wilson's personal representative, is on board.

DUKE AND DUCHESS COME ON EMPRESS DUE AT MIDNIGHT

No Formal Welcome Will Be
Tendered Says Sir Lomer
Gouin.

Quebec, Oct. 24.—According to the latest information here the Empress of Ireland with civil royal highnesses the Duke and Duchess of Connaught aboard, will not arrive here until midnight tonight, at the earliest, and the big liner may even be delayed until the small hours of the morning. There is a heavy rain all along the St. Lawrence, and the ship will not be able to make her usual speed.

Major Drouin said this morning that there would be absolutely nothing in the way of a formal reception. He said he would personally welcome the duke, probably towards morning, but it was unlikely any members of the city council would accompany him.

According to Mr. Parkinson, of the dominion police, who will be on duty tonight, which will carry their highnesses to Ottawa, the royal party will remain on board the Empress of Ireland until the time they will arrive for Ottawa at 9 o'clock in the morning.

NAGARA WHIRLPOOL VICTIM IS RESCUED BY SWIMMER

Moving Picture Cart Imprisoned in Small Boat by Whirlpool
for Four Hours Before Heroically Rescued.

Niagara Falls, Oct. 24.—After being for four hours in the grasp of the whirlpool in a small motor boat, Peter W. Langard, of Detroit, was rescued at black last night by Fred Preston, of Niagara Falls, who heroically swam in the whirlpool with a life line. Langard was more dead than alive, when rescued. He was taken to a hotel on the Canadian side, where it was said he would be all right in 24 hours, although his nerves were badly shattered by the ordeal. Langard made the whirlpool trips from the Maid of the Mist launch on the Canadian side, of the whirlpool to furnish a subject for a moving picture film. The trip had been made several times before without mishap.

MAYOR HINDLEY OF SPOKANE.

Will Speak tonight at the Empire
Auditorium.

AD. CLUB VOTES
MAYOR HINDLEY'S
TALK BEST EVER

Spokane's Mayor Speaks to
Large Gathering at luncheon
at Empire Auditorium.

It is a feeble statement to say merely that Mayor Hindley's address is the best to which this club has ever listened. The words used by George M. Hall, industrial commissioner, in moving the vote of thanks for the address of Mayor Hindley of Spokane, before the Edmonton Ad club at its mid-day luncheon in the Empire auditorium, were well chosen.

That Mr. Hall did not overstate the facts was evidenced by the comment at the close of the luncheon, and by the enthusiastic demonstration which followed Mr. Hindley's final words.

Between two and three hundred members of the club sat for 20 minutes to talk and drink in his every word, and after the roaring vote of thanks was passed, he was re-elected until he was compelled to rise and speak again, which he did by telling a funny story as a "chaser" for his oratory. And it might be remarked in passing that Mayor Hindley is "one" story teller.

The speaker at tonight's session include Jos. W. Davies, commissioners of corporations Washington and D.C., and John Johnson, of New York university. E. Johnson commenced the Sullivan-Schuyler bill, providing for a reduction of population in large cities on the basis of one-half that of the rate. He declared it would increase the population in large cities instead of lessening it, and would have the beneficial social effects predicted by its advocates.

ATMOSPHERE OF SOMBRE SILENCE ENVELOPS MEXICAN SITUATION

GEN. FELIX DIAZ
TAKES REFUGE IN
U.S. CONSULATE

Hundreds of Adherents Wait
Hours at Railway Station for
His Appearance.

Vera Cruz, Oct. 21.—General Felix Diaz left his residence at 10 o'clock last night, accompanied by General Wilson's personal representative, John Lind, the American consul, W. W. Canada, and his secretary, two American residents and a few friends. It is believed that he is on his way to the American consulate to take refuge there.

General Diaz went first to the German hotel, which is separated from the American consulate by a wall.

The military authorities have been notified that a special train has been made ready for General Diaz, and have issued orders to the federal soldiers to surround the hotel. Diaz is authorized to take refuge in the American consulate.

Hundreds Await Him.
Mexico City, Oct. 21.—Several hundred adherents of General Felix Diaz waited two hours at the railway station yesterday for the arrival of their leader, whose coming from Vera Cruz had been announced in the morning papers. The train was expected to arrive at the station at 10 o'clock.

It is not expected that General Diaz will arrive at the capital today, though his movements appear to be uncertain. No order for arrest.

Vera Cruz, Oct. 21.—The Vera Cruz authorities deny the receipt of an order for the arrest of General Diaz, but the assurance is not sufficient to cause the general to venture from the house into the street.

22 NATIONS UNITE TO FIGHT TUBERCULOSIS

Tuberculosis Conference in
Berlin Attended by Ger-

Berlin, Oct. 24.—The deep interest taken by the German emperor in the tuberculosis was displayed yesterday when he attended the formal opening of the international tuberculosis conference here, at which delegates from 22 nations are in attendance.

President and Secretary Bryan Refuse to Talk

Britain's Policy has Created Embarrassing Conditions at
Washington—United States Authorities Believe that
Huerta Government is Toppling—General Diaz Not
Regarded Favorably.

Washington, Oct. 21.—An atmosphere of gravity and sombre silence enveloped the Mexican situation here, not only with regard to the dissatisfaction of the United States at Great Britain's attitude but also to the state of affairs in Mexico City as the election of October 26 draws near.

There were no tangible developments, but an incident of the day which official Washington interpreted ominously as President Wilson's refusal to discuss Mexico or any phase of the problem when he met the Washington correspondents in their usual semi-weekly conference. The president always had discussed informally any unusual matters of interest consequent by giving the general status of affairs. Today he asked to be excused.

Bryan Also Retained.
Secretary Bryan showed equal reticence with the federal authorities in Mexico to give the captured Madros a fair trial. While General Felix Diaz is by no means regarded with favor by the administration here it was apparent that the state department that American officials would look with disfavor on any harm befalling him or any other candidate in the coming elections.

It became apparent in well informed quarters that Great Britain's failure to repudiate the action of Sir Lionel Gordon, British minister in Mexico, was to be taken as a precedent for future action. It was not expected that General Diaz would arrive at the capital today, though his movements appear to be uncertain.

Crew Rescued But Barge Ceylon Sinks
With Full Cargo on Board.

Kingston, Oct. 24.—In yesterday's storm the barge Ceylon, with wheat, from Port Gathorne in Montreal, foundered off Long Point, Lake Ontario.

The crew were taken off by the tugboat. The barge was wrecked by the Montreal Transportation company. The barge was wrecked by the Montreal Transportation company.

TWENTY-FIVE YEARS IN PRISON IS OTTO RUDOLPH'S FATE

Slayer of Gneiting and Attempted Murderer of Kaiser Will
Spend the Next Quarter of a Century
Behind Prison Bars.

Otto Rudolph was found guilty of the murder of Kaiser Wilhelm and sentenced to 25 years imprisonment in penitentiary.

When next Otto Rudolph walks the streets of Edmonton a free man, he will have changed from a heartless brute of 16 to a middle-aged man of 41.

At 11.30 this morning the young German was found guilty of the second charge against him of having attempted to murder his friend, Carl Mauser, on July 28 last, in the woods near Pader.

NEW YORK WOMEN IT SEEMS HAVE LOST MODESTY

Daring Skirts Slit to Knee
Openly Worn by Women
of American Metro-
poli.

An observant Canadian woman and an equally observant Canadian man, who have just returned from New York and Atlantic City, have from a non-professional point of view given their impressions of the new American styles.

To do something original, let us tell, if about, the men's fashions first. It is about the ladies' fashions that they will be gracious, and for one let the men have their clothes described in the hearing of the story. Women ought to be acquainted with the salient features of men's attire, at any rate.

White socks are one of the most noticeable phenomena. They have almost completely driven out the dark socks, which were worn for so long. The effect is therefore more striking. The real reason why this style has caught on so generally is that it is a "comfort" style. Men who once wear white socks come back to them every day, for it is the unanimous opinion that they make walking and standing pleasant and comfortable.

In Canadian cities, a few white socks are to be seen, and quite a few grey ones, which are not so conspicuous. In suits, preference seems to be given to plain blacks or blues, and to black and white checks. The wide eyes, long pointed collar, with the open worn outside the vest, is the most piece of neckwear. That is also gradually coming into vogue in the east. For the first time in years, New York men this season are carrying canes. In the respect, Toronto was ahead of the metropolis, for her men, under the influence of London, have been "caneing" canes for a long time. The "vesting" to New York men, you would think, the New Yorkers were a lot of Englishmen.

STUDENT HAT THE RAGE
Not for the ladies. Winter hats are already being worn to such an extent that the woman with a straw hat, "ready" to "go out" is "out of the race," and it is sport to watch the girls push and crowd to get up the new headgear, which is a very loose fit, sitting back on the head and hanging loosely almost to the shoulders.

The big coat, swathing the waist, is immensely popular, and the colorings are rather bold. The "bright" and "vivid" colors are the ones most worn.

The Chinese mandarin coats, which are comparatively new in the East, seem to be going out a little in New York, and are being replaced by the "Fisher" wrap, which is like an old grandmother's shawl.

Suits most of the suits and costumes for street wear are cut as loosely as possible for evening wear. A great deal of black is worn these cold days in various materials, such as crepe de chine, crepe metee, and soft brocades, and moires.

Skirts Are Diaphanous
It is to the skirts that the terms "extreme" and "awful" may be applied. It is hard, up to the present at least, to tell what has been very harmless, and not too modest. In New York, however, fashions have been a little bolder. To such an extent has the movement gone that a person, who should know, says that the skirt themselves are light, often white, and diaphanous. We have seen girls dress on the stage for a couple of years, but what we accept under the name of the stage, we can justly deride on the street. The effect of the present styles may be inferred from the following bona fide incident.

A Broadway store, not a lady's store, housed two bright lights above the door. One, advertising the store, and the other with this inscription: "They haven't time to look at the girls." The girls were dressed with people, who, under the glare, watched the girls pass by with the new style. The owner of the store was badly fixed for blocking traffic.

Not only are the dresses transparent; they are slit half-way to the knee or higher, sometimes on one side, sometimes on both sides, and occasionally at the back as well.

BOMBAY SHARE MARKET CLOSES.

Bombay, India, Oct. 24.—The financial excitement as a result of the closing of the Bombay share market yesterday continued and other branches of the market were badly affected. The share market are badly affected. The shutting down of the market was due to a tremendous fall in Bombay share prices and a number of failures. Yesterday a pearl merchant failed for approximately \$1,000,000, while another merchant failed for \$100,000.

CHILDREN BURNED TO DEATH.

Madison, Oct. 24.—While Mrs. Danahy, a colored woman, was absent from her home in North Madison for a few minutes, her four children, aged three and four respectively, were burned to death. The fire, which was caused by the children's playing with matches, was taken out by the children who had been told in each other's arms when taken out of doors.

THE GAY WORLD.

Mrs. John Phipps is entertaining for her guests, Mrs. Ferguson, of Vancouver, on Saturday afternoon.

A "Dance" will be given tomorrow at the Blue Moon tea room. As this is the first dance of this kind given in Edmonton, it is hoped that the patrons of the tea room will make it a success.

Turner's orchestra will play, and those who do not care to dance will enjoy the music. Tea will be served as usual.

Miss Marjorie Brown is going east shortly to spend some weeks.

Mrs. Hector Landry is giving a girls' tea tomorrow afternoon.

The first of the assembly dances will take place on November 7.

Yesterday was such a perfect day that an unusual number of ladies availed themselves of the opportunity to call in the west end, as nearly all the hostesses of that quarter were receiving. Mrs. Cross, Mrs. Darby, (who has Miss Kilham of Winnipeg for a guest), Mrs. Haines, and many others were kept busy during the afternoon.

Mrs. McKenney and Miss McKenney spent yesterday with Mrs. Emery and to the east, where they will spend the winter visiting Montreal, Toronto, Belleville and other places.

Mrs. G. Havelock Abbott received on Wednesday afternoon at her apartment at the Arlington and had a large number of callers. Mrs. Abbott wore her beautiful wedding gown of white champagne satin with draperies of white brocade velvet chiffon, caught with rhinestone ornaments and a silver bandeau in the hair. The drawing room was gay with pink and white carnations and ferns. The tea table was decorated with mauve chrysanthemums in a pierced silver basket. Mrs. R. Mitchell, Mrs. Riddell and Mrs. McClary did the honors. Mrs. Havelock, Mrs. Ingle and Mrs. Shadon assisted.

Mrs. C. L. Richardson, Saskatchewan avenue, was the hostess of a farewell tea to Mrs. Percy Hylle Wednesday afternoon. During the entertainment Mrs. Hylle was the recipient of a sterling silver vase and bon bon dish, given by a few of her friends, on the eve of her departure to her new home in Victoria. The tea table was prettily decked with flowers and presided over by Mrs. Harry Williams and Mrs. Etnel. Mrs. Creighton assisted, and among the guests were Mrs. B. F. Blackburn, Mrs. Lionel Gibbs, Mrs. Tulliver, Mrs. Reginald Smith, Mrs. J. Thom, Mrs. Estace Cope, Miss Gend and Miss Harrison. Miss Annie Strachan sang some lovely songs.

Mrs. Murray later received yesterday afternoon at her residence, 661 Seventh avenue, south side, for the first time this season. Mrs. Lister was assisted in receiving by her two sisters, Mrs. Corbett and Miss Alice Corbett. The tea table was prettily decorated with pink and white carnations in a beautiful china basket on a mirror base, and was presided over by Mrs. Lister who served tea, Mrs. Evelyn Coffey, and Mrs. J. R. Anderson who cut the loaves. Mrs. J. McAllister assisted in the drawing room. The girl assistants were Miss Wilson, Miss Dyke, Miss Martin and Miss Trudade. Mrs. Lister was wearing a champagne colored poplin with draperies of blue nixon and lace. Miss Corbett wore a smart costume of pink silk with trimmings of diamonds and here, Miss Alice Corbett was frocked in yellow nylon draped over rose brocade. The drawing room was charmingly flowered with quantities of white and white chrysanthemums. There were about 150 guests.

"Garry Kenneath," the residence of Hon. Arthur L. Sifton and Mrs. Sifton, is an unassuming looking house of red brick. It is square in shape, with a square, well-kept lawn about it, enclosed by a white wooden fence. The soft silt name of "Garry Kenneath" belongs to the square exterior and gives forth a welcome "Come inside and be gay." When the door is opened

the visitor is met by the petite mistress of this entrance and ushered into the large drawing room, furnished in perfect taste with English chintz, not chairs, cozy sofas and Turkish rug, and performed with the delicious odor of roses, for Mrs. Sifton addresses roses and has them always about her. As hostess Mrs. Sifton excels her reception is a delight to society, and when she greets her guests she has a fascinating gift—that of speaking in short, crisp statements sentences, a relief from the monotonous affected by most society women, and she has ever a smile and a cheering word, and always makes a point of saying the right thing at the right time. After shaking hands with the host and hostess at one of Mrs. Sifton's receptions for the premier is a bon camarade and makes himself very agreeable on these occasions, one wanders about the pretty house, pausing a little to admire the small rose room of the drawing room and the white tea room, which is always used on these days. Then down stairs to the big dining room, paneled in dark wood and furnished in brilliant crimson, where one finds the most delightful things to eat set about in the daintiest of dishes, the table scheme having been attended to at arranging and ordering menus. Here one lingers as long as possible, and there are always interesting people and pretty clothes, and good-looking cabinet makers in this room, and the time slips away and cheeks redden with the hours and bells ring, and one never hears until etiquette demands that one shall depart, and even when as revolvers are being laid everyone goes so slowly away, that a kind and thoughtful housemaid closes the door, in house—that's the way society enjoys Mrs. Sifton's reception. Mrs. Sifton is at all outside this altar, Sifton belongs to every club and society in Edmonton—she herself says, "to everything that will have me"—and is an honorary member of a vice-president of the local council of women, the Canadian woman's club, the arts and crafts, the handicrafts, the University club, and every other club that the flesh is heir to, and she is beloved and esteemed by all of them.

When in London at the time of the coronation the premier and his family were introduced in the king's set, and Mrs. Sifton has many amusing anecdotes to relate and many memories of that memorable visit. May one add a few words about the wardrobe which the mistress of Garry Kenneath possesses? No one dresses more elegantly, and the presentation gown worn at one of the coronation drawing rooms is a dream of beauty. In fact, all the costumes of this little lady are in keeping with her environment, and she makes every inch the grande dame who entertains royalties or other distinguished visitors. Mrs. Sifton and her family may go abroad this winter. In fact, it has been rumored that the premier will eventually reside in England. If such an event were to take place Edmonton would indeed be deprived of one of its most hospitable and interesting hostesses.

THE EVER-USEFUL ONE-PIECE GOWN.

DESIGN BY MAY MANTON.
7725 Semi-Princesse Gown, 34 to 42 bust.

THERE is no more satisfactory model than the one-piece or semi-gown. It is equally well suited to the street and to the house and it can be made from almost any material. The one shown here is extremely simple, consisting of a blouse made with front closing and a skirt cut in five goes which is closed on a bias-wide band. The neck is finished with a fancy collar and the sleeves can be extended to the wrist and are finished with three-quarter length. The skirt is separate and can be used or omitted as desired. The illustration is one of the spring models and is trimmed with brocade. Serge, whipcord and all similar materials are equally well suited to the making and, for the later season, a more elaborate trimmings can be used. Charmante is much liked for gowns of this style. As the blue with trimming of lace would be handsome. The over-lap of the skirt is a smart feature, but, in the case of the skirt, the edge is 2 1/2 yards.

For the medium size, the gown will require 10 yards of material, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

WOMEN'S COUNCIL

The regular quarterly meeting of the Local Council of Women was held in the Y.M.C.A. building on Thursday, October 22, with Mrs. Dyke in the chair. Mrs. Lister, convener of the committee of laws, who has very kindly agreed to take over Mrs. Kerr's work until the annual meeting, reported that a shop act for the benefit of working girls was under consideration and was receiving the attention of the National Council. The report of the committee of public health was given by Mrs. B. J. Saunders, who expressed the thanks of the local council to the medical men of the city, who so kindly gave of the valuable time, knowledge and experience in preparing and delivering addresses in the schools on topics relative to public health. The committee is at present distributing the pamphlets to the school children, hoping in this way to influence the men and women of the future.

The committee on equal moral standard and prevention of traffic in women reported that the departure from the city of Mrs. Fortune, the convener, had retarded the work of this committee, but urged the extreme necessity of a strong committee to do this most difficult work. The committee had hoped, with the aid of the affiliated societies, to secure a number of trustees who could not be accommodated at the Y.M.C.A., but through lack of assistance they were obliged to abandon the scheme.

The final resolutions were passed: 1. That the local council nominate a woman candidate to the school board at the event of the retirement of Miss Nichols. A report having been received from Miss Nichols that her health would not permit her to accept a nomination, Mrs. E. E. Hill was made the nominee of the local council.

2. A motion was brought in by Mrs. W. L. May that the affiliated societies be asked to contribute to the Bachelors' Mission, which held that many men would be out of work this winter. This was decided at the next meeting of sympathy was expressed to Prof. Kerr upon the death of her father, who was a most valued member of the local council and convener of the committee on laws. Mrs. Saunders spoke very strongly on the question of women neglecting to use

their right to vote and made a motion that the local council appoint a standing committee on franchise for women, whereby to make the voting women of Edmonton appreciate their privilege.

Mrs. Arthur Murphy gave an interesting address on school matters. She spoke of the necessity of separating defective school children from the normal ones. At present there are seven defective children in the Edmonton school, but for the future number no provision is made. Some plan of detention is urgently needed. Mr. Chadwick has made a proposal to the premier for this purpose. This is now being considered. Speaking of Mrs. Nichols' work on the school board, Mrs. Murphy reported that some of the newspapers had blamed Mrs. Nichols for not resigning when her health did not permit her to attend to her duties.

Of Mrs. Nichols' tendered her resignation to the school board. By her exertions and the efforts of the ladies of the school board, Mrs. Nichols has fully justified the local council in appointing her to the school board. As to the salaries paid to the women teachers, Mrs. Murphy found that in the public schools the women are paid less than the men, which is quite unfair. But in the high school the salaries are higher and might be a matter worth considering. She regretted that it had been necessary to have the kindergarten at the Y.M.C.A. building, where the smallest children are most exposed to the danger of fire and also that a greater provision had not been made for more kindergartens. At the present time there are only four, and if the system is embodied it should be done better. She hoped that our trustees should be so fortunate as to secure her, would encourage manual training in the schools. "Some children are to be killed by literature; some by art; some by science or by mathematics, but you can make infinitely more by manual training than by these three put together, for the simple reason that the human race is essentially productive and constructive."

No matter what the color of the shoe top this band of leather must be tan and the shoe that lacks it, is passé.

shoes with duckbill toes has now come to the other extreme and is sporting the shortest vamp imaginable. In addition to this the French heel has grown so monstrously high and is shoved so far forward that it rests almost under the center of the foot. To make matters worse the dress-makers have decreed that the street must not hide the shoe. The very smartest tailor-made will look hopelessly out-of-date if the skirt is long enough to hide the walking boot, and so this ugly hybrid of a shoe is French, half American, is heavily displayed.

States May Cause Crisis With European Powers, Says Huerta

Intends to Pursue Policy that Will Nationalize the Land and Make it Available for the People—Elections October 26, but Disturbances May Prevent Full Legal Number of Votes.

Mexico City, Oct. 24.—General Huerta, provisional president of Mexico, made a statement today which was afterwards read in the presence of all the members of the diplomatic corps and the cabinet ministers. In this statement, General Huerta gave his most solemn assurance that the sole aim of his policy as interim president is, first, to maintain peace in the republic, and second, to comply with the law of his country in holding free elections. "It is the choice of the Mexican people," he said, "which will be installed in power."

Will Protect Foreigners.

General Huerta said his government determined at all cost to protect the lives and interests of foreigners in Mexico, but that the government was equally determined that the domestic affairs of Mexico shall be settled by Mexicans themselves.

He referred to the president of the United States in terms of greatest respect, and expressed unbounded admiration for the people and institutions of the United States. He said that with great emphasis that the differences between the people of Mexico and the people of the United States are a difference so inherent and fundamental in the character of the two races as to make it entirely impossible to apply to the people of Mexico, American methods, in the solution of a democratic government for his country.

General Huerta emphasized his belief that when peace has been restored in Mexico and after a lapse of some little time, the people of Mexico, having paid dearly for the catastrophe of the last three years, would probably be more able to express their preference by the ballot and abide by the result of his people and that the time would not be far distant when millions of Mexicans would vote upon the great questions affecting the government of their country.

Never a Democracy.
It must be clearly understood, he said, that from the standpoint of representative government, where the masses have a right to vote and do express their opinions at the polls Mexico has never been a democracy by the people. In the sense in which there is a democracy in Great Britain, Germany, France, and the United States, there is not and never has been a democracy in Mexico.

The best government Mexico has ever had," continued General Huerta, "has been a government by the few, and it will be a long time before Mexico is able to have any other kind of government."

It will require many years to bring the country to the point where millions of men will be able to go to the polls and cast an intelligent ballot and abide by the result of a ballot.

"What the people of the whole world want for Mexico is not that it should have a government fashioned on the lines of the governments of the United States, Germany and France, but a government adapted to the needs of the people of Mexico, satisfactory to the people of Mexico, and able to maintain the peace of the country and protect the vast interests which foreign nations have at stake in the country."

Should Support Government.
"As it is impossible to impose the will of any foreign country upon the Mexican people, except by force, the logical course of all the governments of the world, especially the government of the United States, is that they should give to the government for the time being in Mexico, their recognition and moral support in the efforts which that government is putting forward for the restoration of peace and interests of foreigners, including Americans, throughout the country."

"It has not been many years since nearly 2,000,000 Americans were in arms against each other, and nearly half the territory of the United States was in rebellion against the central government at Washington. The government of the United States at that time had the right to expect and had the pleasure of receiving the moral support of the entire world in its endeavor to restore order. The United States established a central authority and the people of Mexico must feel the same as the people of America would have felt if any foreign nation had been left if any foreign nation had been left."

Hopes of Prorogation on Saturday Are Fading Away

Much Business Yet to be Transacted—Calgary College Bill is Withdrawn Again—Amendments to Companies' Act Adopted—Libel and Slander Bill Under Consideration.

At yesterday's rate of progress the legislature should sit for another fortnight at least. The committee of the whole worked by fits and starts. There were a few sprints and many delays. The school grants spread over a lot of time and in the end nothing was gained by the discussion. The corporation tax amendments and the amendments to the companies' law went through without a murmur. The amendments to the game act, the statute law amendments, the unincorporated tax law and other measures are still on the waiting list and there appears to be slight hope of prorogation on Saturday.

Calgary College.

Prior to withdrawing bill No. 48, an act to amend the act incorporating the Calgary College, Dr. Blow spoke at some length in support of the institution. Geographically and climatically, the college was admirably located. It had a sound financial backing and it furnished technical education which could not be obtained elsewhere in Alberta. The climate of Calgary was particularly suitable for higher education.

It was not competitive with the provincial bill sent through to that institution. He said that the bill was being withdrawn as the result of a conference which he hoped would be fruitful.

John R. Boyle complimented the members of the South Calgary on the address and spoke in high terms of the college and its work. It was the policy of the government, said the minister of education, to encourage all private institutions of learning and none was more worthy of assistance than Calgary College.

Mr. Boyle moved a resolution in the form of a motion that the provisions contained in the Calgary college bill be referred to a committee of not less than three nor more than seven, members to be appointed by the lieutenant governor in council. The motion was passed by unanimous vote.

Committee of the Whole.

In committee of the whole the house passed upon the bill respecting hair, but the bill went through without a murmur. There was considerable smoke and an occasional whiff of smoke from rimped hair, but the bill went through without a murmur. The three-hour session was passed with the exception of two sections, which were held over for further consideration.

School Grants.

The opposition, led by Mr. Stewart, made quite a stand on the school grants bill. The doctor was quite in-

quisitive and Mr. Boyle went into minute details on section three which provides for the payment of grants. The amendments to the school ordinance and trustees law were considered and partially disposed of. The amendments to the corporation tax law and the companies' law passed without change of any kind and with no debate.

The libel and slander bill was under consideration, and all but two sections were disposed of when the house adjourned at 10:30 p.m.

CITY ALDERMEN PAY VISIT TO THE PELICAN GAS WELL

Council Makes Trip to Field to Obtain Direct Information on Subject.

The members of the city council left the city this morning at 9:30 a.m. to inspect the wells of the Pelican Oil & Gas Co., limited at Pelican Rapids. The party will include representatives from the three daily papers and be in charge of H. L. Williams, the manager of the company.

This trip has been arranged since the council meeting last Tuesday evening when Mr. Williams told the members that he would prefer them to visit the field and get the information first hand.

If good time is made the council will probably be back in time for the regular meeting next Tuesday evening.

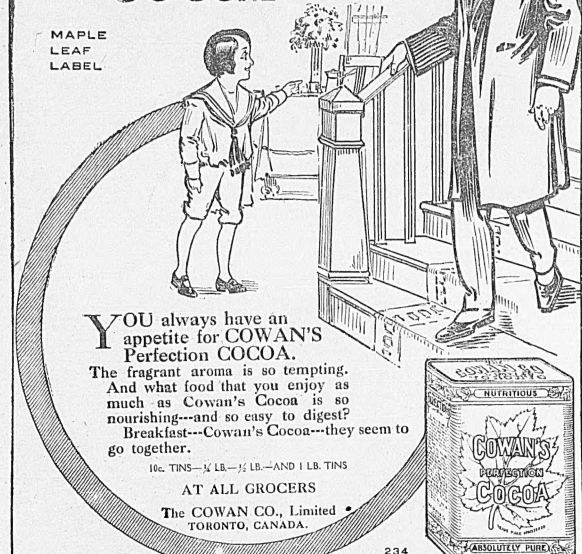

LEAVES FOR GREAT BRITAIN.

Winnipeg, Oct. 24.—F. Roland, industrial commissioner, will leave on the P. & O. liner, where he will take up the question of financing the proposed industrial scheme to be located on the old exhibition grounds. The scheme is to erect in units, buildings to cost ultimately \$10,000,000, the buildings to be used by small manufacturers. Mr. Roland will also arrange for the trip of the Winnipeg business men to Great Britain, next year.

EXPLORING PARTY BACK FROM VISIT TO FAR NORTH

Travel 600 Miles on Mineralogical Investigation—Retire as to Results.

After six months absence from the haunts of men and cities, during which time they were without communication with their friends by mail or other means, the expedition, led by Mr. Burwash, returned to the city of Ottawa, Ontario, and a party of prospectors returned from the north country yesterday.

Mr. Burwash is a native of the city and his conversation with the Capital was more communicative on the research work, done by the party than on the nature of the mineral samples they had secured. The whole expedition was in canoe, a distance of over 600 miles. Mr. Burwash, who had most of the country traversed was virgin land from the point of view of the mineralogist, but was rather reticent as to the mineral value of the same.

FORTY-FOUR PERSONS DROWNED

Hernösand, Sweden, Oct. 24.—The steamer Westholm, which left Vasa, in the Gulf of Bothnia, Wednesday afternoon in a gale, ran on a reef a few hours later and 44 persons were drowned. A single survivor was picked up by the steamer Carl Von Linn, and landed here last night. The crew succeeded in launching a boat, but the steamer sank in a few minutes. The boat was swamped.

Several of the crew clung to the rigging, but with one exception, all succumbed to the cold and exposure during the night.

TRIPLE MURDER BY EX-HUSBAND AT RAY, N.D.

Jalous Man Slays Former
Wife and Daughter and
Woman's Husband.

Devils Lake, N.D., Oct. 24.—Mrs. D. Dillon, and Lella Marsh, her daughter, are dead at Ray, N.D., and her mortally wounded as the result of shots fired from a revolver said to have been the hands of Lauren Culbertson, former husband of Mrs. Dillon.

The tragedy took place in the Dillon farm, six miles north of Ray, on Wednesday. It is alleged that Lauren Culbertson, or Steve Culbertson, as he was registered at the hotel, after coming to Ray on Wednesday, went to the Dillon farm in the evening and until Dillon returned from the field where he had been threshing. As Dillon entered the barn it is said Culbertson shot him down and, believing his victim dead, it is asserted that the murderer went to the house and killed Mrs. Dillon and Lella Marsh. There were no eye-witnesses, but it is believed that both died instantly.

The World's Best Liniment Needed in Every Family From Infancy to Old Age

If Your Home is Without "Nerviline"
Read the Following Carefully.

The high cost of living today demands economy on every side. Strenuous is expensive. Far better to treat little the before they grow serious. For this reason every home should have handy on the shelf a good remedy like Nerviline, which cures the minor ailments that occur in every family.

For example, when the boy comes in with wet feet and a slight cough, Nerviline will cure him. If a cold has settled on his chest, rub on Nerviline and the cold will go.

If something has been eaten that causes cramps, nausea, or diarrhea, just twenty drops of Nerviline—Nerviline's all and cure is effected.

As a liniment for external application in case of Neuritis, lame back, Sciatica, Lumbago or Rheumatism, it's really hard to imagine how Nerviline relieves, and how soon it cures. Nerviline is nothing new. No, it's one of the oldest and best known remedies. Used in thousands of homes and by the people of all nations, simply because it stops pain, cures sickness, and aids the family of ill before they become troublesome. Get the family size bottle, price 6c; trial size, 25c at all druggists and druggists or The Catarrhine Co., Buffalo, N.Y.

CONVICT OFFERS SUGGESTIONS FOR RUNNING PRISON

Tells Commission How Men in
Kingston Might Be
Helped.

Kingston, Oct. 24.—"P. 172," a prisoner who accepted a distinguished position in the social and commercial world before his conviction, was called by the commission yesterday to give evidence on the system of the penitentiary and its effects upon young offenders. He urged better classification of the prisoners, different treatments for different grades of criminals. He favored the present system of feeding by cells. The men should be kept separated from adult criminals. The boys are taught all manner of crimes by older criminals.

He thought the honor system could be adopted. At least 15 percent of the convicts could easily be put on their honor. He thought hair-cropping and the uniform they had to wear was most degrading and humiliating. He added that hair-cropping was necessary in some cases for sanitary reasons. He favored a moderate allowance of tobacco. Nearly every convict used tobacco and they would steal anything to get it. He had heard of traffic in tobacco but had no personal knowledge of it. He admitted that he occasionally got a very small piece. The guards usually gave a little to the men to get them out of their cells. It was almost necessary in order to get satisfactory results. A small chew of tobacco went down for a convict as if it did with a mechanic outside. He thought the food was reasonably good but did not approve of the system of selling food from the prison farm and then buying inferior pork for the inmates.

He caused a smile when he innocently stated there was a great improvement in the meals in the past two months. He missed the newspaper very much. They got very little information as to what was going on in the outside world. The only thing they had to read outside of the bible were very few magazines. Today Dr. J. N. Platt, ex-warden, will again be a witness as the commission wishes to ask him further questions. Charges preferred against Hospital Overseer Wilson will also be aired, and the overseer will make serious charges against the guards who are attacking him.

WINNIEP MINISTERS PROTEST.
Winnipeg, Oct. 24.—The Winnipeg ministerial association, whose action is approved by those leading citizens whose opinions have been secured, has passed a strongly worded resolution of protest against the charges of ritual murder brought against the Jews of Russia, having particular reference to the trials now in progress at Kiev, Russia. The charges are designated as relics of the ages of witchcraft and black magic.

ATHLETIC DISAGREEMENT.
Toronto, Oct. 23.—The certain break between the Athletic Union and the Dominion Football Association has advanced toward a final settlement. The D.F.A. authorities secretary, Mr. J. H. Crow, of the Athletic Union asks for a copy of the constitution of the D.F.A. He points out that he is given to understand that the D.F.A. has in its constitution a clause covering the rights of professionals as well as of amateurs.

PROFITABLE FACTORY.
London, Oct. 23.—The report that the Grand Trunk railway meeting today, Chairman Smith, who is in charge of the meeting, is unsatisfactory that with larger gross receipts they had been made. The report is not good. The cause was the large increase in wages and in cost of fuel and other materials. The meeting did not attend to the matter of cost. They had been able to maintain all their charges on capital account," he said, "a continual fight to maintain our position."

INDICTMENT AGAINST THAW.
New York, Oct. 23.—A blanket indictment charging Thaw with conspiracy in connection with his escape from the Matteawan State Hospital for the criminally insane, was returned by the grand jury here. It will be used as a grand jury by William Travers Jerome in his efforts to extradite Thaw from New Hampshire.

White Blisters Spread All Over
Head, Scratched Until Mass of
Sores, Hard Crusts Left Raw
Flesh, Had to Cut Hair Away,
Healed by Cuticura Soap and
Ointment. Hair Growing Thick.

139 Remond St., Peterboro, Ontario.
"My little girl's head was in a terrible state. It started with little white blisters, which would break until it spread all over her head. The burning itching was dreadful, especially at night when she would scratch it. It was one mass of sores all over her head and the pillow would be covered with blood. She could not rest at all with the pain. She would beg me to put something on to cool the burning and itching. Hard crusts would form on her head which when she scratched it would have the raw flesh underneath, and the head came off with it or it would be in such a dreadful state that I would be obliged to cut it all away."

"I tried several remedies but none of them seemed to do any good. I then cut her hair close, washed it with Cuticura Soap and bandaged it using Cuticura Ointment. It is now quite healed without a mark on the skin. Her hair is growing thick and black again." (Signed) Mrs. M. Saunders, Feb. 15, 1912.

HUNGARY AFTER BALKAN TRADE

Agents Eagerly After Business
Before Peace Articles
Are Signed.

Vienna, Austria, Oct. 21.—The rift in the Balkan has commenced. Without waiting for the final signing of the articles of peace, the agents, who are very active in this part of the world, have already started to release the samples which have been piled up in the foreign stations for months.

Quick to seize an opportunity, the Austro-Hungarian man of business is willing to run a very considerable gamut in the hope of securing orders. His willingness to accept credit, and even doubtful credit, on good terms, is the only way of his access in the Balkans, for it is only by this means that he has kept Turkish trade through the ages.

The Turk has a constitutional objection to paying ready cash. The Austrians, on the

any case the more oriental portion of that vast continental nation which calls itself Austro-Hungary, is also an inveterate quating nature. He understands this peculiarity and makes his terms to suit. He charges price which will include an occasional loss from any unforeseen circumstance, but counts in general on the well-known honesty of the Turks. The "Turks always pay," says the Austro-Hungarian man—and he doubt his faith is founded on experience.

The utterance of a Bulgarian statesman Zankov have attracted great attention in Vienna. His recent article in the "Year Land" calls upon Austria-Hungary to consider the advantages of a commercial alliance with Bulgaria. He says that the Austro-Hungarians do not like the advantage of their proximity to Bulgaria. Hungary is the chief exporter of goods to Bulgaria. It has only 25 per cent. of the whole available trade. Austria-Hungary is the chief importer of goods to Bulgaria. It has only 25 per cent. of the whole available trade. Hungary is the chief exporter of goods to Bulgaria. It has only 25 per cent. of the whole available trade. Austria-Hungary is the chief importer of goods to Bulgaria. It has only 25 per cent. of the whole available trade.

next with 15,000,000 to 13,000,000 francs, while Italy, who is rapidly catching up her rivals and is developing her industries very rapidly, sends 4,000,000 to 5,000,000 francs' worth to Bulgaria annually. Austria could naturally best her rivals out of the field in colored prints and the finished article, were she to make a determined effort in this direction.

Austria takes an easy first in leather and leather goods. Vienna being known all over the world for the excellence in this branch, Germany comes first in machines and parts of machines. Austria, too, although Zankov does not mention this fact, must do a large trade in machines, as large numbers of American typewriters and sewing machines are seen throughout the Balkans.

There is but small prospect of Austria-Hungary gaining ground in this branch, however, as there are few factories, and although the people of Austria-Hungary have shown the utmost ingenuity in imitating the Zepplin and other airships and few British zeppelins are due to them—they will not devote capital to the exploitation of their inventions, but leave this field to more commercial rivals.

Zankov proposes that Austria-Hungary should admit Bulgarian cows and cattle, and that Bulgaria should, in return, give Austria-Hungary special tariffs. The writer points out that in Austria-Hungary no animal is admitted being practically any meat is admitted being practically

prohibitive. He points out that if the agrarians cannot prevent the admission of cattle by ordinary means, they resort to extraordinary devices.

He finally comes down to concrete proposals and says that Bulgaria should remit all or part of the duties on ready-made clothing, glass ware, boots and shoes, in return for these concessions in regard to cows, beans and cattle. This would facilitate the placing of loans in Austria-Hungary, he believes, while postal facilities should be increased between the two countries.

These proposals, made by Zankov, are no doubt very excellent but their practicability is somewhat dubious. The Balkan states are already making arrangements for cheaper postal rates, and letters are to go for 15 letters within the union, which consists of all the Balkan states. The cost of postage and telegrams is largely used for the despatch of goods here, so as to obviate the necessity of filling up the forms required when despatching a parcel. It is also to be greatly reduced. They are inclined to make use of their new outlets to the sea, and to look to Italy rather than to Austria-Hungary for new markets. Italy imposes no Italian conditions on the entry of meat. At the time when Argentine meat was sent to Austria-Hungary and subsequently refused at the writer's points of arrival in Austria-Hungary, meat was sent to Italy, where the meat was accepted with alacrity by the

authorities and inhabitants, who are much too progressive to permit of interference with their interests by any party in the state.

Varsity Will Give Tigers Hard Fight Tomorrow

Probable that Varsity Will Score Although a Victory is Not Anticipated—Last Game Between Two Teams Was Close.

There is little probability that the Varsity rugby team will defeat the Tigers in the game at Calgary tomorrow, but there is strong probability that the Varsity will score. In the first game between these two teams, played in Edmonton, the Varsity gave the Tigers a hard match, the Calgary aggregation getting away with a victory on the very small margin of 8 to 2. The Tigers were unable to cross the Varsity's goal line during the game and won only on kicking, while Logan, the speedy captain of the Varsity, got away several times for goal points and it was only through bad luck that the colleges failed to score.

It is safe to predict that the Tigers will not run up as big a score by half, on the Varsity as did the Eskimos in their last game against that team. Captain Logan, who is one of the best rugby players in Alberta has been putting his men through some stiff practices and has been in good shape for a hard match. Logan knows the game well and is getting the most out of the material he has at hand.

It is quite likely that the Tigers will send their full strength into the field in the early part of the game until they are sure of a victory as they can not afford to run the risk of a defeat.

Y.M.C.A. LEAGUE FOR VOLLEY BALL

Nine Teams Organize and Playing of Schedule Starts on October 27.

Nine volleyball teams have been organized at the Y.M.C.A. and a schedule drawn up for games to be played for the remainder of this year. Volleyball has become a popular indoor game at Y.M.C.A. gymnasiums. There are two things that recommend it, the most important one being that it is a game anyone can play, and the other is, it furnishes exercise for almost every muscle in the body without being a violent game.

Following are the teams and schedules:

Teams—

Alexander—Knevelson, Shickel, Godfrey, Lancaster, Lister, Hart, Swallow.

Burgess—Sapia, Williams, Strata, McDonald, Newsome, Badley, Hink.

Elliott—Finch, Campbell, Service, Rowden, Drummond, Spencer, Thomas.

England—Bennett, Badley, Rowden, Watson, Dalesner.

Jack Forbes Taught Ju Jitsu to Glasgow Militant Suffragettes

Is an Adept at the Game and Challenges Anyone in the City to a Match, Barring Neither Weight, Nationality Nor Sex.

Barring neither weight nor age, nationality nor sex, Jack Forbes, the Scotch wrestler who is taking on all comers of his weight at wrestling, has issued a sweeping challenge to take on all comers at Ju Jitsu.

Forbes is an adept at this style of wrestling and is anxious to secure a match. He would prefer to take on a "Jap" who knows the game.

"Ju Jitsu is an interesting sport," said Forbes, in speaking of his desire to secure a match at that game. "It is rougher than ordinary wrestling and requires more ability to endure pain. No holds are barred and a man is not defeated by putting him on his back and pinning his shoulders to the mat but by putting on him a hold which will make him admit that he has had a plenty. It is a case of making a man 'toller nuff'."

"It is a rough game but an art that everyone should learn as it is almost as effective as a case of self defense as a knowledge of boxing."

"Women should learn Ju Jitsu. A woman who is adept at Ju Jitsu can handle any ordinary man who is not trained at that game. When in Glasgow I taught Ju Jitsu to a class of militant suffragettes and many of them became so skilled in the art that they were able to put up an awful struggle against police who attempted to arrest them."

"A small man is at a decided disadvantage when he attempts to stop a bigger man with his fists, but if he has a knowledge of Ju Jitsu he can overcome any amount of advantage in weight and strength."

NECK BROKEN IN WRESTLING MATCH TORONTO WINNER IN COLLEGE MEET

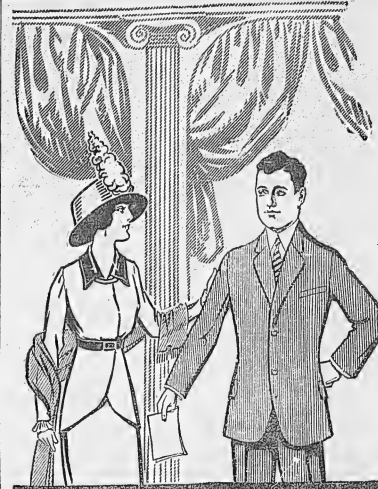

Chester Houston in Y.M.C.A. Contest Has Neck Broken and Dies.

Nashville, Tenn., Oct. 24.—Chester Houston, of Pipestone, a student in the Manitoba commercial college, while wrestling with Jay Morris, of Parker, South Dakota, another student in the same college, at an informal social entertainment at the Y.M.C.A. Wednesday night, suffered a broken neck and died last yesterday.
